

Get Started

At New Mexico Gas Company, we strive to help you save money and use energy wisely. That's why we built the free Home Energy Analyzer to give you an energy ranking, savings estimate, and upgrade recommendations with the biggest bang for your buck.

Our Energy Efficiency Rebate Programs help you make those recommended changes while getting hundreds, even thousands of dollars in rebates.

To learn more about the Home Energy Analyzer, any of our Energy Efficiency Rebate Programs, or to connect with contractors and download forms, visit:
nmgco.com/energy_efficiency

Income Qualified

Our Income Qualified Program helps you with the energy-saving measures to lower your utility bills at low or no-cost. This program applies to all income qualified individuals including rural and Native American communities.

New Homes

If you're building new homes, rebates are available when you install high efficiency furnaces and/or water heaters, or if your home has a qualifying RESNET- accredited HERS rating.

Multi-Family

The multi-family (MF) program offers rebates for all eligible residential (in-unit) and commercial (common area or master metered) upgrades that create gas energy savings in all types of MF properties, whether market rate or low-income. To learn more about specific upgrades and eligibility visit our website.

Saving Resources Saving Money

Residential Energy Efficiency Rebate Programs

A Natural Choice.

Water Heating

High Efficiency Showerhead & Water-Savings Kit

Rebate: FREE KIT!

Includes:

- (2) Showerheads
- (1) Kitchen Sink Aerator
- (2) Bathroom Faucet Aerators
- (1) Roll of Plumber's Tape

Save thousands of gallons of water and an additional \$150 in gas savings over the life of the showerhead and water-savings kit.

ENERGY STAR® Water Heaters

Heating water is the third largest energy expense accounting for ~14% of utility bills.

Tankless

Rebate:
Homeowners: \$300
Homebuilders: \$225

ENERGY STAR Tankless Water Heaters
(.87 UEF or higher)

Storage Tank

Rebate:
Homeowners: \$115
Homebuilders: \$100

ENERGY STAR Storage Tanks:
Less than 55 gal (.64 UEF or higher)
More than 55 gal (.78 UEF or higher)

Space Heating

ENERGY STAR Space Heating

Rebates:

Homeowners: Up to \$375
Homebuilders: Up to \$300

Furnaces

A new ENERGY STAR gas furnace with an A.F.U.E. Rating of 92% or greater can provide immediate and long term savings. The better the efficiency, the greater the savings and rebates.

Boilers

Approximately 80% of your natural gas bill goes towards heating your home. Upgrading to a more efficient system will save you money and these rebates will help with the upfront costs.

ENERGY STAR Smart Thermostat

Rebate: \$50

Smart thermostats automate your home's energy use around your schedule, and even the weather. Save up to \$180 per year and have the freedom to control and monitor your home's temperature from anywhere.

Residential Attic or Ceiling Insulation

Rebates:

Tier 1: 25% of cost up to \$500
Existing: R-11 or less / Add: R-19 or greater
Tier 2: 25% of cost up to \$300
Existing: R-(12-19) / Add: R-38 or greater

Insulation keeps your home warm in the winter and cool in the summer. The R value indicates the resistance to heat flow and the higher the number, the greater the effectiveness.
